15 Photovoltaic panel prices

How much does a solar panel cost in the UK?

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However,please bear in mind that this is the price for a single solar panel and does not include the professional installation or any other extras e.g. pigeon proofing. With that said,let's explore some common solar installation scenarios...

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive,and their cost per kW is somewhere around £1,000 - £1,500whereas polycrystalline solar panels cost about £900 per kW.

How much does a 3.5 kWp solar panel system cost?

A 3.5 kWp solar panel system would typically require around 10 solar panels (at 350 W each) and cost between £5,000 and £10,000. *kWp stands for 'kilowatt peak'. This is the amount of power that a solar panel or array will produce per hour in prime conditions.

How much does it cost to clean solar panels?

However,if you notice your solar panels becoming dirty - for example,bird droppings,or dust building up on them during a dry,hot summer - you should consider getting them cleaned. Solar panel cleaning by a professional will cost around £100,but you can do it yourself with a hose. How much do solar batteries cost?
