

6kva solar system New Caledonia

How many solar panels does New Caledonia have?

Equipped with more than 58,000 solar panels, the plant has installed capacity of nearly 16 megawatts-peak (MWp), estimated to be enough to cover the energy needs of over 21,000 residents of New Caledonia. The plant will also feature a lithium-ion energy storage system with a capacity of nearly 10 MW.

What is New Caledonia's largest solar power plant?

The project involves building and operating a solar power plant with a capacity of 11.2 MWc in the South Province, in Boulouparis. The power plant, which is the largest existing solar facility in New Caledonia, comprises 43,000 panels covering 20 hectares. It was commissioned at the end of April 2017.

Why is AfD cofinancing the largest solar power plant in New Caledonia?

AfD is cofinancing the largest solar power plant in New Caledonia to allow cleaner energy to be generated. 43,000 photovoltaic panels will be installed, with a capacity to produce electricity for the equivalent of 5,400 households.

Who owns New Caledonia's energy?

The energy produced will be sold via a long-term power purchase agreement to Enercal, a semi-public company majority owned by New Caledonia. A similar (but smaller) project has also been financed at the same time in Temala in the North Province. It is the first photovoltaic power plant on customary land.

Total Quadran, a wholly owned Total subsidiary, has brought online its Hélio Boulouparis 2, the second phase of the solar park which is the most extensive solar program ...

Founded in 2007, AMBI Energy SAS has established itself as a leading reference in the engineering, design and construction of turnkey photovoltaic solutions in New Caledonia and the Pacific.

Since 2007, AMBI Energy SAS has designed, built and maintained photovoltaic solutions in New Caledonia and the Pacific. Our proven experience and know-how allow us to propose you ...
