

Ab solar power systems New Zealand

Can New Zealand banks install a solar power system?

Thanks to New Zealand banks jumping on board the renewable energy bandwagon - a solar power system is now more achievable than ever. Trust Solarcraft, The Solar Energy Professionals, for your Solar Power Installation. Hassle free, from start to finish. We are your sole point of contact during your solar system installation

How much does solar power cost in New Zealand?

According to the Electricity Authority, the average size of a residential solar power system installed in New Zealand today is 4.4 kW, which would cost roughly \$12,600*fully installed. A 4.4 kW solar power system would include 10 or 11 solar panels (depending on the size of the panels) and a 4 kW or 5 kW inverter. Is Solar Power Worth It?

Are solar panels a good investment in New Zealand?

A solar power system in New Zealand can easily earn a 10 to 15% return on investment. But this rate of return is likely to increase each year as the price of electricity continues to climb. Unsure if solar panels on your roof will be worthwhile or if the upfront cost will lead to a good payback?

Who is New Zealand's leading solar provider?

New Zealand leading solar provider since 1986 ? Web design by ZOHAR Ltd. Solar Group is New Zealand's leading solar energy provider. We've been installing solar systems in NZ & the Pacific since 1986. Get a free report & quote.

Who is Able Solar?

"Able Solar has worked with us to create a solar electric generation system that deals with our exposed coastal location and provides for our holiday house requirements. It has been a real partnership and we greatly appreciate their continued involvement with maintenance and trouble-shooting long after the original installation was done.

Why should you choose a solar installation in NZ?

Choosing a solar installation in NZ reduces your reliance on traditional power sources and helps you save money on your electricity bill. You're also taking control of your energy future, as appliances and lights remain operational even during a power cut.
