

Afghanistan solar system for complete home

The pilot program will see the introduction of Afghanistan's first pay-as-you-go home solar systems. The systems, which include small solar arrays and batteries, allow ...

Solar energy for Afghanistan means: reliable electric power supply without negative environmental influences such as noise and stench by generators - and solar power systems already amortize themselves after a short time by the renunciation of expensive fuels.

Zularistan solar power systems support permanently public buildings like schools, libraries and hospitals with electric solar power. After finishing a project we are still available for the customers needs, service and maintenance. Choose ...

With over 300 days and more than 3,000 hours of sunshine per year, the sun offers one of Afghanistan's most productive energy sources - clean, affordable and easy to use. Solar energy holds huge potential for electricity as well as heat generation in Afghanistan.

The Afghanistan Project is a Masdar initiative that has installed 600 solar home systems in 27 villages within the Helmand Province of southern Afghanistan. The project is enhancing the lives of more than 3,000 people without access to electricity. The installations include 545 houses and 55 public buildings, including schools, mosques and clinics.

400kW Solar Power System to Bamyan Provincial Hospital. For this project of a 400 KW plant in Bamyan we provided the complete installation in 2016.

The pilot program will see the introduction of Afghanistan's first pay-as-you-go home solar systems. The systems, which include small solar arrays and batteries, allow Afghans to pay for electricity through small monthly installments, key in a ...

Our program provided over 10,000 solar lanterns for different nomadic tribal people in Afghanistan. This included over 1,700 solar lanterns in Badakshan. These small systems are used to assist rural nomads in Afghanistan with basic LED light to replace kerosene lamps and to provide an option for mobile phone charging.
