The recent announcement of the £30 million Billown Solar Farm, set to be located on 84 acres near Castletown, is a testament to the island's dedication to renewable energy. This massive project, once completed, has the potential to power up to 7,700 homes, providing long-term stability and independence for the Isle of Man's energy supply.

The project would incorporate a mix of renewable energy technologies to provide greater levels of daily power availability and grid stability.
