Helix Energy Solutions Inc., known as Cal Dive International prior to 2006, is an American oil and gas services company headquartered in Houston, Texas. The company is a global provider of offshore services in well intervention and ROV operations of new and existing oil and gas fields.

The company was formerly known as Cal Dive International, Inc. and changed its name to Helix Energy Solutions Group, Inc. in March 2006. Helix Energy Solutions Group, Inc. was incorporated in 1979 and is headquartered in Houston, Texas.

Algeria is currently engaged in discussions with Germany to establish itself as a major supplier of green hydrogen to Europe's largest economy. Plans are in motion to enhance pipeline connections, extending their reach across the continent, which could potentially cover up to 10% of European demand for green hydrogen.

Algeria possesses exceptional potential for renewable energy development, particularly Solar Energy, where the country enjoys high solar irradiance with an average of 3,000 sunshine hours per year in desert regions, offering excellent ...
