Who is xindun Power Co?

Xindun Power Co. is one of top manufacturers which specializing in R&D and sales of dc to ac pure sine wave inverter, hybrid solar inverter, three phase inverter, solar generator, solar power system, UPS power supply. Xindun was founded in 2007, head office is located in Foshan, Guangdong, China.

Who is xindun?

Xindun has served more than 100,000 users. Free for inverter appearance design and configuration of solar power system solutions. Free training services and assist distributors to promote inverters.

What is xindun plug & play Solar System?

This article will tell you. Xindun plug and play off grid solar system (solar kit), is the best ready-to-use system that includes everything you need to generate electricity from the sun. The plug & play solar power systems consist of solar panel, inverter, and pv cables already connected together.

Who is Guangdong xindun?

New branches and warehouse centre was opened in West and East Africa, Pakistan. Guangdong Xindun Power Technology Co., Ltd. Guangdong Xindun Power Technology Co., Ltd. is a comprehensive top manufacturers specializing in the designing, producing and sales of products in the field of power supply.

Where is xindun located?

Xindun was founded in 2007, head office is located in Foshan, Guangdong, China. New branches and warehouse centre was opened in West and East Africa, Pakistan. Why Malaysia Customers Choose Xindun Stand Alone Solar Power System?

Are xindun solar inverters OEM/ODM acceptable?

OEM/ODM is acceptable. Xindun has passed ISO9001 certification, solar inverters and solar controllers have passed CE certification. 6 experienced QC charge of every step of production 24 hours simulation run before delivery. 30000 hours of trouble-free operation dc to ac inverters. 3 years warranty for inverters, solar controllers, ups.

Xindun 10kw solar power system has been successfully used in an office in Angola, providing an effective solar solution for the commercial and solving the high electricity cost. Xindun has 19 years of production experience in the field of solar energy.

Power generation data was drawn from our African Energy Live Data platform, which contains project level detail on power plants and projects across Africa. The map is presented as a PDF file using eps graphics, ...
