

Is Azerbaijan ready for green energy?

"Laying the foundation of 3 stations with a capacity of 1 GW is not only a first in the field of green energy in Azerbaijan, but also a bright indicator of our solidarity and commitment to the energy transition," said Shahbazov. Masdar completed a 230 MW solar plant in Garadagh, near Baku, in October 2023.

Which solar projects are being built in Azerbaijan?

The installations include the 445 MW Bilasuvar PV project and the 315 MW Neftchala solar plant, both in southeastern Azerbaijan. Investors signed investment agreements for the projects in October 2023 and have since signed power purchase agreements, transmission connection agreements, and land lease agreements.

Will Nobel Energy contribute to the smooth energy transition in Azerbaijan?

During COP28 UAE we had the opportunity to share Nobel Energy's perspective and specific plans to contribute to the smooth Energy Transition and Decarbonization in Azerbaijan, at an event organized by the Ministry of Energy of Azerbaijan.

How much electricity will Azerbaijan generate per year?

Investors signed investment agreements for the projects in October 2023 and have since signed power purchase agreements, transmission connection agreements, and land lease agreements. Azerbaijan Energy Minister Parviz Shahbazov said the three projects will generate 2.3 billion kWh of electricity per year.

How many solar projects will Masdar build in Azerbaijan?

Utility-scale solar developer Masdar is set to develop two new solar projects in Azerbaijan. Masdar will build three solar and wind projects with a combined capacity of 1 GW. Masdar and State Oil Company of Azerbaijan Republic (SOCAR) have signed a shareholder agreement for each of the projects.

Is Azerbaijan a 'key strategic market' for Masdar?

It is Azerbaijan's first foreign investment-based independent solar project and currently the largest PV plant in the Caspian region. Masdar Chief Executive Officer Mohamed Jameel Al Ramahi said Azerbaijan is a "key strategic market" for the company. Azerbaijan has set a target of generating 30% of its energy capacity from renewables by 2030.
