

Bel power solutions sro The Gambia

Bel Power Solutions is one of the world's largest providers of power conversion and power management solutions. The company provides the product breadth to support every step in the refinement of utility-grade AC into the various DC voltages required to power high-availability infrastructure systems at the site, system, and semiconductor levels.

Bel Power Solutions offers a wide range of positive switching regulators designed as power supplies for electronic systems, where no input-to-output isolation is required. Their major advantages include a high level of efficiency, high reliability, low output ripple, and excellent dynamic response. DIN rail AC / DC and DC / DC products

Development and production of switched mode power supplies with a wide range of types and power and power modules (DC-DC, AC-DC and DC-AC converters) for application in the transport, industry, telecommunications, medical and cons

Bel Power Solutions

Bel Power Solutions

The EOS Power EPG500 Series of AC-DC power supplies accommodate a universal input voltage of 90 - 264 VAC delivering up to 300 W of output power with forced air cooling. EPG500 - 500W, Open Frame Power Supply | Bel Fuse
