

Bentley s largest solar farm

What is Bentley's largest ever solar-powered car port?

Car port increases Bentley's solar energy system to over 30,000 panels - enough energy to cover over 1,750 homes (Crewe,10 April 2018) Bentley Motors today announces that construction has started on the UK's largest ever solar-powered car port at Bentley's factory headquarters in Crewe,UK.

What is the Bentley factory in Crewe?

The Bentley Factory in Crewe built in the 1940s is ideally situated to generate solar power as the "saw tooth" factory roofs are south facing at an angle of 20 degrees. It is the UK's largest rooftop solar PV array,owned and operated by solar power generator,Lightsource Renewable Energy and was installed in March 2013.

How have Bentley's solar panels been successful?

Of their solar success Michael Straughan,Bentley's Member of the Board for Manufacturing,said: The solar panels have generated over 2,200,000 kWh's of energysince its installation in March,having a hugely positive impact on the efficiency and sustainability of our manufacturing operations. We're very proud of the project ...

What does Bentley Motors' solar installation mean for the environment?

This solar installation announcement follows recent recognition that Bentley Motors has become the first UK automotive manufacturer to be awarded the Carbon Trust Standards for carbon,water and waste,further reducing the environmental impactof its operations in Crewe. Bentley Motors is the most sought after luxury car brand in the world.

What is the largest solar farm in BC?

The Upper Nicola Band is hoping to build the largest solar farm in the province on its land in the southern Interior. The community has partnered with Fortis BC to build a solar farm with 56,000 modules,each containing 72 solar cells,on the Quilchena reservenear Merritt,B.C. Fortis says the project will cost an estimated \$30 million.

How long does it take for Bentley to install solar panels?

The installation of 10,000 solar panels,which has a capacity of 2.7MW,will take approximately six monthsto complete. Once completed,the car port - which covers Bentley's colleague car park - will take Bentley's energy system to 30,815 solar panels. This includes the 20,815 panel roof top installation completed in 2013.

Stop Grove Solar Farm Bentley has been created by concerned locals. We are not against renewables - in the right place. We believe solar panels should be erected on ...

By 2015, Solar Star was declared the world"s largest solar farm with regards to its installed capacity, as mentioned earlier that it makes use of 1.7 million solar panels that spread over ...

Bentley s largest solar farm

The installation will be owned and operated by Lightsource Renewable Energy Limited, the UK's leading solar energy generator. Over 20,000 solar panels with a capacity of 5MW are being fixed to the roof of Bentley's ...
