

This project is a significant achievement for Saturn Power, BELCO, the government and the people of Bermuda, as it is the country's first utility-scale, renewable energy facility. Using over 20,000 photovoltaic solar panels, Saturn Power developed this 6 MW AC solar photovoltaic (PV) power generation facility, at "The Finger" on St. David ...

Bermuda: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page ...

While we analyse the options for economical, large-scale, renewable power, we are laying the foundation to support Bermuda's transition, which includes retiring old engines; making internal practices and efficiencies more sustainable; moving to an entirely electric commercial fleet; upgrading our transmission and distribution network and ...

Conventional Energies. Conventional energy generation is a "must" in today's world, which human beings cannot do without. At I-NNOVA Energy we are aware of the need for migration towards generation towards renewable energies, but in this transition, it is important to collaborate in the optimization of conventional generation plants currently in operation, to reduce the ...

Understanding renewable energy resources in Bermuda is critical to predicting the energy output of renewable energy technologies. To assist businesses, researchers, students and anyone ...

The Department of Energy provides: for the development of energy policies within Government and throughout Bermuda. a broad public education campaign highlighting issues with fossil fuel dependence; energy efficiency and ...

Hallo, mein Name ist Jan und ich bin zusammen mit Till Grönder von Inova Energy. Lasst mich die Geschichte von unserem Unternehmen erzählen. Alles begann im Frühling 2021, als ich in einer Strandbar von Costa Rica auf den lebhaften Franzosen Alexander stiess. Nach ein paar Bier und einem Gespräch über Gott und die Welt beschlossen wir ...
