

# Best solar product inia Myanmar

Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Is there solar power in Myanmar?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar power systems have been installed due to the largely mountainous terrain, protected areas, and limited grid system. Solar power is currently an option only for rural and off-grid applications in Myanmar.

Is Myanmar a good place to invest in solar power?

According to a study on solar resources and solar PV potential in Myanmar conducted by the World Bank, most of the population (75%-85%) lives within a 25-50 km radius of HV power lines, making it a promising location for medium- and large-scale solar projects. In 2017, peak demand reached ~3000 MW.

Are solar cells used in Myanmar?

Myanmar, being a country with abundant sunshine, has the potential for solar energy. However, the high cost of solar energy limits its availability for some. Researchers have been conducting research on solar cells in Myanmar to address this issue.

Why should you choose Asia Solar?

We offer outstanding service using high quality products delivered at competitive prices. Such as Rural Area Solar Power Distribution System, Solar Home System (SHS), Solar Street Light System, Solar Water Pumping and Solar related Accessories and Consultation. Asia Solar Co.,Ltd is "The Best Solar Energy and Lighting Solution Provider" for you.

With multiple production facilities, we can professionally design, manufacture and distribute a portfolio of products focused on PV module, solar power system installation and other smart energy solution.
