Lithium-Ion UPS battery backup systems are designed to provide twice the life expectancy of traditional VRLA batteries. Through fewer battery replacements, ability to withstand higher temperatures, and quick recharge cycles, these systems are ideal for protecting your critical infrastructure in edge or distributed IT environments.

Battery Chargers and AC Distribution Boards, by ALBAT doo Sarajevo, Bosnia and Herzegovina. Specializing in Substations, ALBAT serves the Middle East market. Explore more at or reach...

Battery backup units (BBU) supply power to computers and peripherals for a limited time during mains power outages or brownouts. DC/DC battery backup units are critical for avoiding catastrophic data loss in data centers and allow safe shutdowns of factory automation processes during outages.
