

When will Oman launch a solar project?

In January 2024, Oman launched a public tender for another 500 MW solar project, Ibri Solar III, with commercial operations due to begin in the fourth quarter of 2026. Public tenders are expected for three new solar projects and five wind projects between 2025 and 2029.

How much solar will Oman need in 2022?

SolarPower Europe said the country will need to install a minimum of 13 GW of solar in total by 2030 to meet its target. It noted that Oman's utility-scale PV capacity stood at 0.5 GW in 2022, thanks to the 500 MW Ibri II solar plant, developed by ACWA Power. The project started commercial operations in August 2021.

Is Oman a good place to invest in solar power?

The recommendations form part of the "Oman Solar investment opportunities" report, the latest work from SolarPower Europe's Global Markets unit. The report said that Oman's current electricity mix is primarily based on natural gas, accounting for 96% (38 TWh) of power generation in 2022, compared to solar at 3.8% (1.5 TWh).

How can Oman achieve net-zero energy goals?

SolarPower Europe has urged Oman to pursue greater integration of renewable energy, liberalize its market structure, and optimize grid infrastructure to meet its ambitious net-zero targets. The recommendations form part of the "Oman Solar investment opportunities" report, the latest work from SolarPower Europe's Global Markets unit.

5 ???· The developments are North Solar, a 100 MW solar project located in Saih Nihaydah in northern Oman, and Riyah-1 and Riyah-2, two 100 MW wind projects located in Amin and West Nimr fields in southern Oman. The solar and wind projects are expected to generate over 1.4 terawatt-hours of renewable electricity annually, TotalEnergies said.

3 ???· Estimated to cost in the range of \$200 - 250 million, this solar PV scheme is expected to be operational by Q1 2028. Not included in the latest portfolio of new Solar IPPs is the Ibri III Solar PV project, the procurement of which is well underway. The mid-sized scheme, valued at around \$380 - 400 million, is anticipated to launch in Q1 2027.
