

British Indian Ocean Territory 3 kw solar system price in karachi

How much does a 3KW Solar System cost in Pakistan?

Alpha Solar provides affordable and high-quality 3kW solar systems in Pakistan. A hybrid 3kW solar system price in Pakistan will also depend on the type and number of batteries you add to your system. On average, two 185 amp batteries are added to the 3kW solar panels. Each 12V battery will cost you more than Rs 60,000.

What is a 3KW hybrid solar system in Pakistan?

A 3kW hybrid solar system is the most commonly used system in Pakistan as it provides a few hours of electricity backup for use at night or during power outages. To add batteries as a backup option, we have to install hybrid inverters with solar panels because hybrid inverters are known as multi-mode inverters.

What is a 3KW Solar System?

In simple terms, it can be understood as a system that generates 12 units of electricity daily. A typical 3kW system often consists of six solar panels, each with a capacity of 575-585 watts, a 3kW solar inverter, and all other essential items required for installation. A 3kW system is capable of powering most small household appliances.

Why are people switching to solar power in Karachi?

Karachi was known as the city of lights, but sadly the consumption and requirement of electricity far exceed the electricity the city is producing. People are switching to solar systems because the generators run on fuel, and the fuel prices increase day by day. Generators also cause a lot of noise and environmental pollution.

Should I buy a 3KW Solar System?

For such homes that consume less but pay more, a 3kW solar PV system is the best choice. If you consume between 300 and 400 units, a 3kW solar system is an ideal choice for you to eliminate high electricity bills for the next 25 years.

Which solar panel system is best for small businesses in Pakistan?

For small to medium-sized homes, businesses, and shops with an annual electricity consumption of up to 4000 kWh, a 3kW solar panel system is the ideal choice. In fact, the majority of households, small shops, offices, and even small businesses in Pakistan can meet all their electricity needs with a 3kW system.

Price Range: Installation costs for on-grid systems generally range from PKR 120,000 to PKR 160,000 per kW, depending on the system size and components selected.
