British Indian Ocean Territory sensible energy storage

The British Indian Ocean Territory (BIOT) is an Overseas Territory of the United Kingdom situated in the Indian Ocean, halfway between Tanzania and Indonesia.

By focusing on cutting-edge developments in sensible heat storage, latent heat storage, and thermochemical energy storage, the issue seeks to provide a comprehensive overview of how these technologies can address the challenges of intermittent renewable energy sources.

Whether for the storage of renewable energy, or the development of EVs, BESS will be a key technology in the decades ahead. Governments should act now, and incentivise public and private companies to either purchase, produce, or recycle more lithium, if they do not wish to expose their supply chains to significant geopolitical risk.
