The project, categorized as Environmental Category B, signifies a strategic move towards a low-carbon transition in Tunisia's electricity generation. One of the primary ...

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency measures. The plan also ...

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency measures. The plan also incorporates the ELMED project; a 400KV submarine cable interconnecting Tunisia and Italy.

The project, categorized as Environmental Category B, signifies a strategic move towards a low-carbon transition in Tunisia's electricity generation. One of the primary objectives of Project B is to contribute to Tunisia's renewable energy goals while creating employment opportunities in the region.

3 ???&#0183; Qair launches construction at two solar parks in Tunisia. Image by: Qair @LinkedIn. The photovoltaic (PV) farms will be installed in the town of Feriana, in the Kasserine Governorate of west-central Tunisia. Qair owns 100% of the first 10-MW project, while the second one is a joint venture with oil and gas exploration company Mazarine Energy ...

Cairo Solar is a Solar Engineering, Procurement, and Construction company that focuses on not only providing Turnkey solar stations for its clients but providing them with the best financing ...
