In particular, we show how transnational actors in Afghanistan seek to induce change that reflects their values. We focus specifically on energy transitions, where the range ...

Here we examine selected, energy-related aspects of those institution-building processes, taking the country as a case study of institutional development for energy and other transitions that is explicitly driven by particular values.

Projects such as National Area-Based Development Programme, Afghanistan Energy Programme Renewable

# Collective energy africa Afghanistan

Energy Supply for Rural Areas, Energy Sector Improvement Programme, and Citizen's Charter all included elements of women empowerment.

At Collective Energy Africa (CEA), service is not just an add-on--it's the core of what sets us apart. We believe that delivering top-tier energy solutions is only the beginning. Our ...
