

Who is LTI ReEnergy cleantech?

LTI ReEnergy CleanTech GmbH is a leading German automation company group founded 50 years ago and has started to be active in the renewable sector in wind energy since 1999 and solar energy since 2007.

What does LTI do?

Under LTI's supervision, they work to complete projects at foreseen budgets, timelines, and energy generation levels to de-risk the financial investments during the construction phase.

Where is LTI based?

Beyond its robust German technology and European and Middle East engineering base, LTI has successfully set up a technical project development arm acting out of the UAE and a project funding and financial structuring business arm incorporated in London.

Where is geothermal energy available in Colombia?

Geothermal: The Colombian Geological Service estimated an electric power of 1,170 MW, and there is special interest in areas such as Paipa (Boyacá), Azufral (Nariño), San Diego (Cesar), Nevado del Ruiz (Tolima-Caldas), Santa Rosa (Risaralda), and Cerro Machín (Tolima). 50% income tax deduction for 15 years for investments in alternative sources.

What is Colombia's Biomass power potential?

Colombia has a great biomass power potential from agricultural residues (banana, coffee pulp, and animal waste). Its annual biomass power potential is estimated to be over 16 GWh, which is still less than 0.1% of current electricity production. The potential is distributed as follows:

Why should you choose LTI power electronics?

LTI's high-efficiency power electronics is renowned for being deployed in extra-harsh conditions, particularly for the Solar and Waste-to-Energy industry.

LTI ReEnergy's geotechnical services provide a full range of development services to our clients across several sectors, such as Commercial, Energy, Industrial, Mineral and Waste, and Utilities. Our experienced geologists and geotechnical engineers ...
