

The sun is a constant source of energy, and as long as there is sunlight, solar panels in Cyprus can generate electricity. Solar photovoltaic systems in Cyprus are low maintenance. Once they are installed, there is no need for very frequent maintenance.

Sunpower By Domenica specializes in solar energy in Cyprus. We install the latest quality of solar panels, installations services, maintenance services.

Solar panel systems vary in size from small rooftop installations to large scale mass productions. We have installed solar parks, solar systems for houses, water pumping systems, autonomous systems, as well as swimming pool water recycling systems.

Every household in Cyprus can now generate, store and use its own electricity. Through Net Metering Photovoltaic System you can produce and exploit your own electricity at home, with the help of an autonomous Photovoltaic system.

This guide aims to provide a comprehensive overview of everything you need to know about installing a photovoltaic system in Cyprus. From the benefits of photovoltaic systems to ...

This guide aims to provide a comprehensive overview of everything you need to know about installing a photovoltaic system in Cyprus. From the benefits of photovoltaic systems to choosing the right system and finding a reliable installation service, this guide covers all the important factors to consider when embarking on this energy-saving journey.

Via the billing scheme in Cyprus, PV system owners are supplied with energy on days that aren't sunny, meaning the energy production via solar panels is low. The energy generated by a 1 kW PV system is estimated to be 1800 kWh per ...
