

Soleos Energy, an Indian renewable energy developer, is partnering with Melci, a Democratic Republic of Congo (DRC) electrical engineering company, to build a 200 MW solar photovoltaic (PV) power plant ...

Soleos Energy, a renewable energy development company based in India, is partnering with Melci, an electrical engineering company in the Democratic Republic of Congo (DRC), to construct a 200 MW solar PV power project in the Haut-Katanga province.

Representing a \$200-million investment, the project will supply clean electricity to over a million people, while reducing carbon emissions by 300,000 tons annually. The solar park is expected to create over 2,000 jobs during its construction phase and more than 500 permanent roles once operational.

Solar developer SkyPower Global has signed a Joint Development Agreement with Africa Finance Corporation (AFC) that will catalyse the construction of the 200-MW first phase of the Green Giant project in the Democratic Republic of Congo (DRC).

An international consortium led by Powergrids plans to invest \$100 million in three off-grid solar plants intended to power the cities of Gemena, Bumba, and Isiro, which are located in the...

The United Nations Development Program (UNDP) has invested nearly \$700,000 to build a 120 kW hybrid solar plant in Mambasa, Democratic Republic of the Congo.

A hybrid solar power plant has been inaugurated in Mambasa, a town in Ituri province, northeastern Democratic Republic of the Congo. The UNDP invested nearly ...

Representing a \$200-million investment, the project will supply clean electricity to over a million people, while reducing carbon emissions by 300,000 tons annually. The solar park is expected to create over 2,000 jobs ...

Indian renewables developer and builder Soleos Energy and a partner specialising in electrical engineering, namely Melci Holdings, are getting ready to commence construction of a 200-MW solar photovoltaic (PV) plant in ...

Discover the \$200 million solar energy project in the Democratic Republic of Congo. Soleos Energy and Melci Holdings are collaborating to bring clean electricity to over a million people.

The solar project, a joint venture between Soleos Energy and Melci, will provide clean, reliable electricity to

more than 1 million people.

Discover the \$200 million solar energy project in the Democratic Republic of Congo. Soleos Energy and Melci Holdings are collaborating to bring clean electricity to over a ...

Soleos Energy, a renewable energy development company based in India, is partnering with Melci, an electrical engineering company in the Democratic Republic of Congo (DRC), to construct a 200 MW solar PV power ...

A hybrid solar power plant has been inaugurated in Mambasa, a town in Ituri province, northeastern Democratic Republic of the Congo. The UNDP invested nearly \$700,000 to facilitate the development of the 120.96 kW array through ...
