

Where can I find Das energy PV modules?

All currently available DAS Energy PV modules can be found in the DAS Kraftwerk webshop. Not every roof is dependent on light photovoltaic modules - DAS Energy also offers conventional glass modules for photovoltaic projects in every size and performance class. 12x2M project module - specially designed for standing seam rooftops

Who is Das energy?

Welcome to DAS Energy in Wr. Neustadt Our expertise lies in the field of green technology, with a clear focus on the development and manufacturing of lightweight and flexible photovoltaic modules.

How can Das energy modules be installed?

DAS Energy modules can be installed in a variety of ways and affixed with glue,screws,rivets,magnets or grommetson all types of roofs and facades. Our experienced specialists support you from the first consultation to the installation of your photovoltaic system and accompany you on the way to your clean energy solution.

What are Das energy modules used for?

DAS Energy's modules are ideal for mobile homes,campers,boats,tents and electric vehicles such as golf carts - areas where conventional glass modules are out of the question due to their heavy weight. DAS Energy's modules can also serve as a stand-alone power source for street lighting,surveillance cameras,parking meters,etc.

How does Das energy work?

At DAS Energy you get the product,planning and installation of your PV system from a single source. Our photovoltaic cells are encapsulated in fibreglass reinforced PET sheets using a patented process,which allows our DAS Energy modules to be just 2mm thick.

How do das energy modules fit curved surfaces?

Their flexibility allows them to fit the contours of curved surfaces. DAS Energy modules can be installed in a variety of ways and affixed with glue,screws,rivets,magnets or grommetson all types of roofs and facades.

DAS Energy photovoltaic modules differ significantly from conventional glass-foil modules due to their low weight and are also ideally suited for roofs with low load-bearing capacities due to ...

Die DAS Energy ist zudem Hersteller der ersten, vollständig IEC*-zertifizierten, glas-losen, semi-flexiblen und ultra-leichten Module auf Basis von Silizium-Solarzellen. Durch die spezielle Herstellungstechnologie spart man mit DAS ...

Leichte & flexible Photovoltaikmodule, Made in Austria. Photovoltaik Großanlagen mit geringer

Das energy solar panel Austria

Traglast für alle Dacharten - Industrie- & Gewerbedächer. DAS Energy - Photovoltaik-Anbieter aus Österreich.

Thanks to our 2.5 mm thin and lightweight photovoltaic modules developed and produced in Austria, we were able to create an aesthetically pleasing and highly efficient ...

PREMIA ENERGY will assist DAS Solar in Austria with the distribution of products for residential distributed and commercial rooftop solar installations. Also, the two ...

Since 2016, the high-quality DAS Energy photovoltaic modules have been manufactured at the site in Wiener Neustadt, Lower Austria and are distributed worldwide. In the process, the technology is constantly being further developed in the research and development center.

Das Unternehmen wurde 2010 gegründet und vertreibt seit 2016 Photovoltaikmodule mit dem Gütesiegel „Made in Austria“. Inspiriert durch die Luftfahrt kombiniert DAS Energy Verbundwerkstoffe aus dem Flugzeugbau mit kristallinen Solarzellen und entwickelte die weltweit ersten in Glasfaser verstärktem Kunststoff eingebetteten Photovoltaik-Module.

DAS Energy photovoltaic modules differ significantly from conventional glass-foil modules due to their low weight and are also ideally suited for roofs with low load-bearing capacities due to their flexibility and lightness. Installation is simple, as the modules can be glued directly to the sheet metal, bitumen, glass or membrane roof.

We rely on innovative, ultra-light PV modules weighing just 3.8 kg/m², which are developed and produced by the Austrian manufacturer DAS Energy Ltd. in Wiener Neustadt. These flexible modules can be bonded directly to a variety of surfaces such as bitumen, foil and membrane roofs as well as glass and metal surfaces .

Das Unternehmen wurde 2010 gegründet und vertreibt seit 2016 Photovoltaikmodule mit dem Gütesiegel „Made in Austria“. Inspiriert durch die Luftfahrt kombiniert DAS Energy Verbundwerkstoffe aus dem Flugzeugbau ...
