

Why should you choose Eltek?

The world needs power - our contribution is power systems that reduce cost and environmental footprint of energy usage |Eltek is a brand of Delta. It is a global brand, renowned for high quality, high efficiency power solutions relied upon by quality-conscious customers around the world.

Is Eltek a Delta brand?

Eltek is a brand of Delta. It is a global brand, renowned for high quality, high efficiency power solutions relied upon by quality-conscious customers around the world. Sub-brands include power conversion products and technologies HE (high efficiency) and SHE (Super High Efficiency). Its origins lie in Norway, where the company was founded in 1971.

What is Eltek rectifier?

The Eltek Rectifier combines the functionality of a rectifier and an inverter in one space-saving module for mixed AC and DC environments. This means it can be used as the only power module in systems that combine the functionality of a DC power system and an AC-UPS.

In the telecommunications industry, Eltek stands out with its high-performance power solutions, including rectifiers, inverters, and DC power systems. These products ensure uninterrupted power supply for telecom networks, enabling seamless communication and connectivity even in the most demanding environments.

This compact DC system offers a flexible and expandable DC power solution. Due to its small size, high efficiency, reliability and wide range of application, the Flatpack S System is the key for future needs.

Outdoor Type 2 With durable construction the Outdoor Type 2 power cabinet incorporates tailored thermal systems (fan/filters, air conditioners and heaters) that will keep even the most sensitive electronics functioning in extreme ...

The Flatpack2 outdoor power system provides solution for the most outdoor demanding applications with total power output up to 36kW DC load in IP55 enclosure.

Reliability within the outdoor plant depends upon a cool, dry and secure environment for the electronics such as the DC power and Telecom equipment. The Outdoor Type 4 Power Cabinet more than accomplishes this with its ...

Rectifier Outdoor system 6kVA AC + 12,8-21kW DC. The Rectifier outdoor system combines both AC and DC feed into one common unit. Simultaneously it provides AC backup power for 230 Vac loads, and 48 Vdc power for DC loads ...

The Outdoor Type 3 cabinet platform is designed for a variety of applications and can be tailored to fit your specific needs. This solution has a unique cube design that give flexibility to easily have various heights of cabinets. ... And as it is all based on the well proven Eltek technology, the Flatpack S family is the key for future needs ...

Eltek is a brand of Delta. It is a global brand, renowned for high quality, high efficiency power solutions relied upon by quality-conscious customers around the world. Sub-brands include...

Outdoor power cabinet designed for a variety of applications and can be tailored to fit your specific needs. The cabinet is well suited for power, batteries and telecom/industrial equipment, all ...

The galvanic isolated CAN bus can be connected to a supplying Eltek power system's control system allowing monitor and control of the DC/DC converters without adding a separate controller. Key features. Wide input range; OR-ing protection on output; Boost mode;

Rectifier Outdoor system 6kVA AC + 12,8-21kW DC. The Rectifier outdoor system combines both AC and DC feed into one common unit. Simultaneously it provides AC backup power for 230 Vac loads, and 48 Vdc power for DC loads and battery charging. ... Your message will be sent to your closest Eltek Office. To the top. Eltek in social media ...

In the telecommunications industry, Eltek stands out with its high-performance power solutions, including rectifiers, inverters, and DC power systems. These products ensure uninterrupted ...

Reliability within the outdoor plant depends upon a cool, dry and secure environment for the electronics such as the DC power and Telecom equipment. The Outdoor Type 4 Power Cabinet more than accomplishes this with its Thermal Management that will keep sensitive electronics functioning in the most extreme environments.

The modern, networked world is complex and under constant attack from people with malicious intent, insidious methods and invasive tools. Eltek is a supplier of crucial equipment for critical infrastructure, and has a sharp focus on cyber security.

The IPack65 power system provides uninterrupted 48Vdc, either backed up by nearby IP65 free-standing Li-ion batteries or by normal indoor batteries in an outdoor cabinet. Alternatively, the system can be powered by a backed-up 400V AC or DC feed.

Eltek : Saving Energy on a Broadening Scale. Eltek has branched out even further in 2014 as it leverages key business partnerships and widening regional knowledge to unveil its hybrid ...
