

Energeia company Morocco

What is Energean doing in Morocco?

In December 2023, Energean farmed into Morocco's largest undeveloped discovery, the offshore 18 Bcm Anchois gas development. Energean acquired 45% W.I. in the Lixus offshore licence (Anchois gas development), with the option to increase to 55% W.I. post-drilling results, and 37.5% W.I. in the Rissana licence, and is the operator for both licences.

Will Energean be able to buy offshore acreage in Morocco?

Moroccan Minister of Energy Transition Leila Benali said the agreement was "pivotal" for the offshore acreage. "We welcome Energean on these licences as the important investments will contribute greatly to the monetisation of the country's resources and to our ambitious energy strategy."

Will Energean move to Morocco?

The completion of the transaction is subject to government approval. The move into Morocco is fully aligned with Energean's Mediterranean, gas-focused strategy, adding resource to the portfolio, and opening new gas sales markets.

Who is Energean working with?

Energean works in partnership with both AIM-listed Chariot and the Moroccan NOC, ONHYM, and looks forward to meeting the demand for natural gas both in Morocco and beyond.

Is Eni drilling a well in Morocco?

Eni has been drilling a well offshore Morocco with the Topaz Driller. Work began in September and is thought to be close to finishing. Energean has struck a deal with Chariot to enter Morocco and develop the Anchois gas field, with plans for a well in 2024.
