

Enerpoly ab Spain

What is enerpoly AB?

An Enerpoly battery pack. Swedish startupEnerpoly AB has recruited two former Northvolt executives and bought a production line from a bankrupt rival as it seeks to transform the mundane alkaline battery into an affordable option for the energy-storage industry.

Who is enerpoly?

At Enerpoly, we are dedicated to making a positive, enduring change in global energy access and decarbonization. Through honest innovation, we seek to deliver the energy storage solutions of tomorrow. Enerpoly is headquartered at Stockholm, and brings the best of Swedish design and sustainability to the energy storage industry.

Are enerpoly batteries a safe solution for stationary energy storage?

Our batteries are a safe, reliable and incredibly cost-efficient solution for stationary energy storage. The Enerpoly Production Innovation Center (EPIC) aims to meet the demand for affordable stationary energy storage and provide a blueprint for global zinc-ion battery production to support the clean energy transition.

What is enerpoly production Innovation Center (EPIC)?

The Enerpoly Production Innovation Center (EPIC) aims to meet the demand for affordable stationary energy storage and provide a blueprint for global zinc-ion battery production to support the clean energy transition. Enerpoly is located at Stockholm, and brings the best of Swedish design and sustainability to the energy storage industry.

What is enerpoly battery technology?

Building on its founding team's battery chemistry research at Stockholm University, Enerpoly has developed patented battery cell technology to deliver affordable, sustainable and safe zinc-ion batteries. Starting work in 2024, Enerpoly will establish the world's first megafactory for zinc-ion batteries.

What is enerpoly's patented zinc-ion battery technology?

Enerpoly, a leading innovator in the energy storage sector, is advancing the commercialization of its patented zinc-ion battery technology by transitioning from pilot-scale production to industrial manufacturing.

Information on valuation, funding, cap tables, investors, and executives for Enerpoly. Use the PitchBook Platform to explore the full profile. Request a free trial Log in

Enerpoly offers proprietary zinc-ion battery cells and packs. Our batteries are a safe, reliable and incredibly cost-efficient solution for stationary energy storage.

Having been awarded a USD 8.4 million grant from the Swedish Energy Agency in late 2023, Enerpoly set

Enerpoly ab Spain

plans in motion to build the world's first megafactory for zinc-ion batteries. The ...

Enerpoly's Production Innovation Center (EPIC) in Stockholm is pioneering the safest and most sustainable zinc-ion batteries for reliable energy storage. With cutting-edge ...

At Enerpoly, we are dedicated to making a positive, enduring change in global energy access and decarbonization. Through honest innovation, we seek to deliver the energy storage solutions of tomorrow. Enerpoly is headquartered at Stockholm, and brings the best of Swedish design and sustainability to the energy storage industry. ?

Enerpoly produces cost-effective and clean zinc-ion batteries for scalable stationary energy storage solutions | Enerpoly develops and manufactures zinc-ion batteries to deliver ...

Enerpoly is a Stockholm-based deep tech company using patented technology to develop and produce zinc-ion battery cells and packs. Enerpoly's safe, sustainable, and affordable batteries enable the global transition to renewable energy.

Having been awarded a USD 8.4 million grant from the Swedish Energy Agency in late 2023, Enerpoly set plans in motion to build the world's first megafactory for zinc-ion batteries. The 100MWh manufacturing plant will be based in Sweden and is expected to open in 2026 when battery packs and cells will be produced and shipped to customers globally.

Enerpoly produces cost-effective and clean zinc-ion batteries for scalable stationary energy storage solutions | Enerpoly develops and manufactures zinc-ion batteries to deliver breakthrough...

Swedish startup Enerpoly AB has recruited two former Northvolt executives and bought a production line from a bankrupt rival as it seeks to transform the mundane alkaline ...

Swedish startup Enerpoly AB has recruited two former Northvolt executives and bought a production line from a bankrupt rival as it seeks to transform the mundane alkaline battery into an ...

Enerpoly is a next-generation energy storage technology company pioneering rechargeable zinc-ion battery chemistry. Enerpoly innovates in battery components, production methods, and ...

Enerpoly is a next-generation energy storage technology company pioneering rechargeable zinc-ion battery chemistry. Enerpoly innovates in battery components, production methods, and designs, and employs agile research and development techniques to rapidly deliver battery technology that is suitable for the grid, industrial, commercial, and ...

At Enerpoly, we are dedicated to making a positive, enduring change in global energy access and decarbonization. Through honest innovation, we seek to deliver the energy storage solutions ...

Enerpoly ab Spain

Enerpoly's Production Innovation Center (EPIC) in Stockholm is pioneering the safest and most sustainable zinc-ion batteries for reliable energy storage. With cutting-edge manufacturing and a fully European supply chain, we're setting new standards in clean energy storage to power a resilient future.
