

# Fiji solar energy implementation

Why do we need solar power in Fiji?

By harnessing the abundant Fijian sunshine, we aim to power our pristine Fijian paradise with clean renewable solar energy for generations to come, thereby reducing Fiji's reliance on expensive and polluting diesel generation for electricity.

Who supports the Fiji solar project?

IFC has been supported by the governments of Australia and New Zealand through the Fiji Partnership and the Danish Government to carry out this solar project in Fiji.

Will Fiji be able to source 100 percent of its energy?

Suva, Fiji, October 21, 2020- A landmark agreement between Energy Fiji Limited (EFL) and IFC to deliver the largest solar project of its kind in the Pacific to date has been hailed a transformative step that will take the island nation closer to its goal of sourcing 100 percent of its energy needs from renewable sources.

Why do organisations in Fiji switch to solar energy?

The answer is simple. Reduce costs, maintain control and look after Fiji. Organisations in Fiji choose to go solar for their energy for a variety of reasons, including financial, environmental, and strategic benefits. One of the primary reasons organisations in Fiji switch to solar energy is to save money on their energy bills.

Does Fiji rely on fossil fuels?

However, the NEP notes that Fiji retains a heavy reliance on imported fossil fuels, particularly in the transport sector. The NEP sets out a vision for Fiji's energy sector as: A resilient resource-efficient, cost-effective, accessible, reliable and environmentally sustainable energy sector for all Fijians.

How will GGGI support the government of Fiji?

GGGI will continue to support the Government of Fiji beyond this project to achieve the 100% target by 2030. In the longer term the project will establish clean energy supply for households and businesses on Taveuni and reduce GHG emissions reduction estimated at 3,390 tCO<sub>2</sub>/year, thus contributing to the achievement of Fiji's NDC.

EFL Energy Fiji Limited . EIB European Investment Bank : FAO Food and Agriculture Organization of the United Nations . GCF Green Climate Fund : ... to the African countries for ...

Fiji's sun-soaked islands make it an ideal candidate for solar energy harnessing. The adoption of solar panels on homes and businesses has not only reduced carbon footprints but has also...
