

Are solar generators a good option for your home?

Solar generators are quiet, lack any harmful fumes and exhaust, and are completely renewable. With a handful of well-placed solar panels, you can provide a FREE supply of backup power for your home. Today, solar home backup power is within reach of everyone.

Why are French solar panels so expensive?

After a decade of steadily falling prices, the cost of solar panels has stabilised or even increased due to supply chain problems between Europe and China, where nearly all of them are made. However, a few French manufacturers are starting production again. If you have problems sourcing panels, it might be an idea to seek them out.

Are solar-powered generators a good option for storm preparation?

Solar-powered generators have only been around for a few years, but they've quickly become a key part of many homeowners' storm preparation plans. Also known as portable power stations, they can keep appliances like refrigerators and furnaces running during emergency outages -- but they're also handy for campsites, construction sites and RVs.

Can a solar generator support off-grid living?

Yes. Some generators use electricity or gas for power, and all power generators are able to support off-grid living. However, some people prefer solar generators for the following reasons: They're more eco-friendly because they use energy from the sun as opposed to fossil fuels.

What is a Titan solar generator?

Titan is a rugged, modular and customizable solar generator. It comes with a removable 2000Wh Li-ion battery. If you need more capacity, you can simply stack more batteries under the main power unit; no need for wiring or any cables. Power output is 3000W, which is plenty enough to keep essential appliances running during a blackout.

Which solar generator should I buy?

With its durable enclosure and ergonomic design, the GB2000 is our top choice if you're looking to take your solar generator outdoors. The 2,106-watt lithium-ion battery packs plenty of power in a relatively compact package, and the "parallel ports" make it possible to connect two units together, effectively doubling the power output.

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of ...

French Southern Territories solar generators for home

Lithium ion green energy powered by renewable sources such as solar and wind, drives Globe's market first innovation. Globe are on a mission to provide reliable and customisable renewable power products, with advanced design principles that increase efficiency, flexibility and durability, and reduces running costs.

Rent Towable Solar Power. Reliable, low-maintenance, towable solar generators are the clean solution to many remote power needs. We've got an array of configurations available to match your electrical demand. From our small, 2-panel compact unit up to our 8-panel solar trailer complete with a 75kWh battery AND a Honda generator, power to your remote project site will ...
