

ENGIE Africa and its subsidiary AUSAR Energy are launching the construction of 8 hybrid solar power plants at remote sites in the Northwest, in partnership with the Caisse des Dépôts et Consignation du Gabon. It's a ...

Solen, an international company with operations in Gabon, announced this Wednesday, August 28, 2024, the completion of the largest solar power plant, to date, in Central Africa.

A 1.56 MWp solar system will soon be installed on the port's premises, located 21 kilometers from Gabon's capital, Libreville. The project is financed by British International Investment (BII), a British financial institution.

In its project to build hybrid solar power plants, Gabon intends to reduce its carbon emissions in order to achieve annual carbon savings of around 3,000 tonnes of CO₂.

ENGIE Africa and its subsidiary AUSAR Energy are launching the construction of 8 hybrid solar power plants at remote sites in the Northwest, in partnership with the Caisse des Dépôts et Consignation du Gabon. It's a major pilot project to give energy access to isolated villages and help the environment.

Solen SA Gabon, a subsidiary of Solen Renewable Dubai, has just launched the construction of the Ayémé Plaine photovoltaic solar power plant, a locality located some thirty kilometres from ...

Gabon has opened its first utility-scale solar plant - the largest in Central Africa. Developer Solen SA Gabon has said it aims to expand the Ayémé project's capacity to 30 MW to power more ...

Solen SA Gabon, a subsidiary of Solen Renewable Dubai, has just launched the construction of the Ayémé Plaine photovoltaic solar power plant, a locality located some thirty kilometres from the capital Libreville. The future facility will have a capacity of 120 MWp.

Gabon's Owendo Mineral Port will advance its low-emission goals with a \$2.6 million investment from British International Investment to install a 1.56 MWp solar power system and 1 MW battery storage. The project which ...
