

Georgia solar power calculator

Does Georgia Power offer solar?

From home installation and our buy back program, to non-installation options, our goal is to make solar an option for every Georgia Power customer. Learn more about our behind-the-meter solar programs, including the new Renewable and Nonrenewable Resources (RNR) program, and how to interconnect your system.

Does Georgia Power offer a bill calculator?

A bill calculator has been prepared for customers of the Georgia Power Company. This bill calculator applies only to residential customers who are receiving service under the standard Residential Tariff (R-29). For more details regarding Georgia Power's residential tariff offerings, please visit [Georgia Power Pricing & Rates](#). Effective May 2024

How much does a 6 kW solar system cost in Georgia?

A 6 kW solar system will cost about \$13,980 in Georgia before incentives. After the 30% federal solar tax credit, this drops to \$9,786, or about \$1.63 per watt. The total cost of a solar system will vary depending on the company you choose, the size of the system, the equipment installed and how you finance it.

Can I get a solar tax credit in Georgia?

Net metering (by utility) There can be solar tax credits and incentives available at the federal, state and local levels. The calculator above will show you the value of all incentives your home is eligible for. In late 2019, two pro-solar candidates for the Georgia Public Service Commission were defeated by establishment candidates.

How do I choose a solar company in Georgia?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Georgia, a solar installer must be associated with a licensed electrical contractor.

Does Georgia Power offer a solar rebate?

This program is available under Georgia Power's Renewable & Nonrenewable Tariff (RNR). The utility maintains a web page with the most recent numbers of people and MW signed up under the RNR program. Sadly, for the many Georgia residents who use Georgia Power, there isn't a solar rebate available.
