Anyone found Solar inc a battery to be feasible now? 4*2 Family House with Pool but most devices used at night Location WA and use 15.9kwh per day

Of course, that doesn't mean they are cheap now, but the drop is astounding. Previously for each kWh of solar battery storage, you would have to pay somewhere around \$3000 to \$3600 for battery only plus the installation cost. Now, you can expect to pay about \$1200 to \$1400 for each kWh storage of solar battery.
