Solar energy in Guadeloupe still has enormous potential given the archipelago's high number of sunny days. Solar photovoltaic power is referred to as a variable renewable energy (VRE), similar to wind power.

In Guadeloupe, more than 13,000 m² of solar panels have been placed on the rooftops of the Destreland shopping centre and Carrefour Grand Camp. A fifth installation of around 2,300 m² on the roof of Mr Bricolage ...

1400 heures environ d'ensoleillement annuel en Guadeloupe constituent un atout majeur pour la production solaire. Les installations photovoltaïques connectées au réseau sont disséminées sur tout l'archipel ...

Defining a financial model for rooftop solar photovoltaic systems including mounting and storage that will maximize self-consumption; Implementing production management and storage systems for solar photovoltaics, paired with improved management of supply and demand that meets consumer expectations (smart grids) Electric Vehicles

Find solar panel locations in Guadeloupe through our Guadeloupe solar farm map. Analyze the main characteristics of solar farms in this country, sort these by capacity, panels area and ...

1400 heures environ d'ensoleillement annuel en Guadeloupe constituent un atout majeur pour la production solaire. Les installations photovoltaïques connectées au réseau sont disséminées sur tout l'archipel mais de façon hétérogène. En effet, 64% de puissance installée est concentrée sur 4 communes de l'île : Baie-Mahault, Petit ...

In Guadeloupe, more than 13,000 m² of solar panels have been placed on the rooftops of the Destreland shopping centre and Carrefour Grand Camp. A fifth installation of around 2,300 m² on the roof of Mr Bricolage Abymes will be in operation by the end of 2019.

The GBH retail group is installing five photovoltaic power plants on the roofs of its stores across the French territory. This will cover one-third of their electricity needs and contribute to the Guadeloupe region's goal of achieving energy autonomy by 2030.

Growth Potential of Solar Photovoltaics in Guadeloupe The PPE's Objectives for Solar Photovoltaics The regional government's solar photovoltaics policies have several objectives: ...

Since 2008, Albioma has been developing its solar activity in Guadeloupe. The Group currently operates four photovoltaic plants in Jarry, Sainte-Rose and Basse-Terre, all of which are ...
