

Can I DIY my solar panel installation?

If you've researched solar energy solutions, you probably know that it's possible to DIY your solar panel installation, often referred to as DIY solar. But as it turns out, DIY solar can mean something more than just installing your own solar panels -- it can mean building your solar panels from scratch.

Is DIY solar a good idea?

But as it turns out, DIY solar can mean something more than just installing your own solar panels -- it can mean building your solar panels from scratch. While not too common, if you have a knack for major DIY assembly projects, you may want to make your own solar panel components yourself.

Where can I buy DIY solar panels?

Several companies specialise in selling DIY solar panel kits to the public. Plug-in Solar is particularly easy to follow, and offers a wide range of kits and step-by-step DIY guides, plus accessories such as solar panel mounting kits. Renology, Select Solar and Sunstore Solar are also well worth a browse.

How do I build a DIY solar system?

If you're wanting to build a DIY solar system it is critical that you understand the basic laws that govern how electricity works. Understanding basic electrical concepts such as voltage, current, resistance, Ohm's law, and circuit theory are all necessary for a successful DIY solar build. We will begin by defining electricity.

How do you build a solar panel?

To build your own solar panel, you'll need to assemble the pieces, connect the cells, build a panel box, wire the panels, seal the box, and then finally mount your completed solar panel. Purchase the cells. There are a few different types of solar cells to buy, and most good options are either made in the United States, China, or Japan.

Should I buy a DIY solar panel kit?

To save cash, you may be tempted to buy a DIY solar panel kit and fit your panels by yourself. DIY solar panels are widely available and many are excellent value compared with the cost of professional installation. For example, a full 3.4kW 10-panel kit from Plug-in Solar costs £4,728.
