Installing solar photovoltaic panels

How do I install a solar panel?

Installing your solar panel is a straightforward process though calling in professional installers is recommended. Making sure these installers are accredited by MCS is highly important, so as to ensure a high standard of installation. A solar panel will be most effective if you have a south-facing roof.

How do you install PV panels on a house?

The most common method of installing domestic PV panels is mounting them to your rafters. This is done with custom hooks,aluminium mounting frames and specialist clamps. When a property is over one storey high,scaffolding is essential to gain roof access as the engineers need access to work on the roof.

Can solar panels be installed on a house?

If you're getting solar panels installed onto the roof of your house, the installers will need to construct scaffolding around the building before they can crack on with the process. This will take the most time out of all the steps - usually about a day - but will mean the installers can have safe and secure access to the roof.

Do I need permission to install a solar panel?

Under Permitted Development Rights,you won't require formal permissionto install a solar panel. However,you will need to check if your home is not exempt under Article 4 of PDR. In a process that takes less than a day,your panel will be fastened to your roof and connected to your home's electricity grid.

Can you install solar panels on a flat roof?

The DNO is the company responsible for bringing electricity to your home. Usually,your installer will register the device for you. Yes,it's okayto install panels on flat roofs. Solar panels work best when angled towards the sun,so panels on flat roofs are normally tilted up to help maximise energy production.

Can a solar panel be installed on a south-facing roof?

A solar panel will be most effective if you have a south-facing roof. This will ensure maximum sunlight reaches the panel. You will also have to make sure that your roof can support a panel,and that it has a large enough area for panel installation. Under Permitted Development Rights,you won't require formal permission to install a solar panel.
