

Iraq panel solar 1500 watts

How much solar power does Iraq have?

According to the International Renewable Energy Agency, Iraq has an installed PV capacity of only 216 MW despite a huge solar potential. No additional solar power has been deployed in the country in the past three years.

How does a 1500 watt solar panel work?

When the sun shines, the 1500 Watt Solar panels produce DC voltage, and the micro grid tie inverter will change the DC voltage to AC voltage, synchronizing with the utility grid power. It puts out power to the home grid, generating electricity and cutting your electric bill.

Who is the best energy provider in Iraq?

Energy House is the best energy provider in Iraq. Generate and store your own power with Energy House. Start saving today using clean, eco-friendly energy. Our solar panels and inverters are of the highest quality and most cost-efficient in the region. Contact us today to learn how you can switch to renewable energy.

What is a 1500 watt solar grid tie kit?

Its patent (pending) technology makes solar installation very easy. Anyone can add solar panel and can simply plug the system into an existing electrical outlet. 1500-Watt Solar Grid Tie kit generates 3000 KWH of electricity (average) per year, saving about 50% of electric bill for average home owner, depending on location and house size.

Who is QHC solar?

QHC SOLAR (Qimam himreen company) is a national company and was established to provide these solutions. With a global installed base on world wide relations, we believe that solar power is now a mainstream, viable technology of 'today' enabling the move towards a zero-emission power supply.

Generate and store your own power with Energy House. Start saving today using clean, eco-friendly energy. Our solar panels and inverters are of the highest quality and most cost-efficient in the region. Contact us today to learn how you can switch to renewable energy.
