

Who is hydroma?

Founded in 2006, Hydroma Inc is an energy providerspecialized in natural and green hydrogen with a strong presence in West Africa through multiple subsidiaries. Our mission is to accelerate the energy transition by including natural and green hydrogen in the African energy mix!

How does hydroma produce hydrogen?

As Hydroma Inc's energy ambitions extend beyond Mali,the company does not intend to be satisfied with the supply of hydrogen obtained naturally (underground). It intends to produce hydrogen via a decarbonized process: the electrolysis of water. The electrolyser separates a water molecule into hydrogen and oxygen.

Where is hydroma drilling?

While waiting to find partners,Hydroma is continuing its drilling in Maliand has just launched explorations in Australia and Canada,where the company is headquartered. Hydroma Inc. is also exploring the Green Hydrogen trail.

Is hydroma pursuing a green hydrogen trail?

Hydroma Inc. is also exploring the Green Hydrogen trail. As Hydroma Inc's energy ambitions extend beyond Mali,the company does not intend to be satisfied with the supply of hydrogen obtained naturally (underground). It intends to produce hydrogen via a decarbonized process: the electrolysis of water.

What is hydroma & PCA doing in Africa & Canada?

Back in December in Washington DC,Hydroma Inc and PCA signed a Memorendum of Understanding (MoU) to develop a green and natural hydrogen project portfolioin Africa and Canada! Check out the details on our Website on the link bellow: #H2 #greenhydrogen #naturalhydrogen #Hydroma #PegasusCapitalAdvisors #MoU #partnerships

What is hydroma's role in the West African Big Green Deal?

Convinced of the potential of natural and green hydrogen as enablers to accelerate sustainable development and growth worldwide,Hydroma is a key player in the establishment of a robust regional natural and green hydrogen economyvia its West African Big Green Deal Initiative and Foundation (W.A.B.G.D.).

All are emphasizing the pioneering role of Hydroma Inc as the first company to conduct drilling for natural hydrogen exploration and the first to generate electricity using natural hydrogen...

Hydroma is a leader in hydrogen production, focusing on the energy sector with a specialization in natural and green hydrogen. Use the CB Insights Platform to explore Hydroma"s full profile.

After eight years of an experimental phase, Hydroma Inc., the precursor of natural hydrogen in Mali, is

Italy hydroma inc

moving up a gear. The natural hydrogen wells operated by this company will now be used to produce clean electricity on a large scale to meet the energy needs of Mali and even other countries on the African continent.
