Global renewable energy company Masdar has signed a deal for a 1GW renewable energy project pipeline in Kyrgyzstan set to begin with a 200MW solar PV installation.

The project will be structured under the WBG Scaling Solar program--a one-stop shop that helps governments procure and develop privately funded solar projects to produce electricity at competitive tariffs. "Developing renewable energy in the Kyrgyz Republic is crucial to diversify our power supply," said Taalaibek Ibraev, Minister of Energy.
