

Large storage batteries Tunisia

Tunisian utility STEG is planning to build a 400-600MW pumped hydro energy storage plant, for a 2029 commissioning date. STEG, or the Sociéti tunisienne de l'électricité et du gaz (Tunisian Company of Electricity and Gas), is currently undertaking studies for the project, according to a news release from Agence Tunis Afrique Presse.

This partnership is mutually beneficial since it will allow ASSAD to diversify its products and integrate batteries based on new technologies, such as Lithium. It will also enable it to...

For over 70 years, the ASSAD Group has been the undisputed leader in the battery sector in Tunisia, and remains a major reference on the African continent. Our expertise in the ...

Electrochemical storage (batteries) will be the leading energy storage solution in MENA in the short to medium terms, led by sodium-sulfur (NaS) and lithium-ion (Li-Ion) batteries. Several ...

The objective of this report is to look into the potential of Battery Energy Storage System (BESS) development in Tunisia, in line with national efforts towards a clean and sustainable energy

Electrochemical storage (batteries) will be the leading energy storage solution in MENA in the short to medium terms, led by sodium-sulfur (NaS) and lithium-ion (Li-Ion) batteries. Several MENA countries - especially in the GCC - are equipped with competitive advantages in ...

Sand batteries offer an exciting opportunity for Tunisia to leverage its desert environment to produce and store clean, renewable energy.

For over 70 years, the ASSAD Group has been the undisputed leader in the battery sector in Tunisia, and remains a major reference on the African continent. Our expertise in the manufacture and marketing of lead-acid and industrial batteries is recognized worldwide.

Depuis plus de 70 ans, le groupe ASSAD s'impose comme le leader incontesté dans le domaine des batteries en Tunisie et demeure une référence majeure sur le continent africain. Notre expertise dans la fabrication et la commercialisation des accumulateurs électriques au plomb et des batteries industrielles est reconnue à l'échelle mondiale.
