What does the Department of energy do in Lesotho?

The Department of Energy is committed to increasing energy access and ensuring security of energy supply in the country. The Department of Energy is tasked with promotion and implementation of renewable energy projects and programs. A website of the Department of Energy (DoE) in Lesotho with an Energy Management Information System (EMIS).

What is Lesotho solar energy society?

Lesotho Solar Energy Society (LeSES) acts as a platform for the industry and clean energy expert groups to exchange information and implementation of an industry code of practice. Hlotse, Leribe, Lesotho. Decentralized renewable energy production (biogas and solar) and energy saving technologies (stoves), technical training.

Who is constructing a solar power plant in Lesotho?

The government has also engaged China Sinoma International Engineering and TBEA Xinjiang New Energy to construct solar power plant that will produce 70 MW. Lesotho Electricity and Water Authority (LEWA) Lesotho Electricity Company (LEC) Lesotho Highlands Development Authority (LHDA)

Does Lesotho need electricity?

The country is renowned for an abundant supply of unspoilt and unexploited water resources, capturing approximately 50% of Southern Africa's total catchment run-off, therefore, hydropower contributes to most of its electricity needs. When it comes to energy access, Lesotho is considered one of the lowest in Africa.

Can Lesotho export wind power?

Breeze Power, a company owned jointly by GOKL and Harrison & White Investments, is investigating twelve sites for wind power generation. Energy demand is growing in South Africa and the rest of the region, and Lesotho has the potential to export renewable power.

Can Lesotho produce 450 MW of hydropower?

According to Lesotho's Department of Energy, Lesotho could potentially produce 450 MW in hydropower and several hundred more with wind power. However, only 17 percent of this potential is being exploited, 96 percent of it at the 'Muela hydro-power plant and the rest from mini hydro-power plants at Mants'onyane, Mokhotlong, Tsoelike, and Semonkong.
