Is LG launching a new residential energy storage system?

San Jose, Calif., Oct. 18, 2023 -- LG Energy Solution (KRX: 373220), a leading global manufacturer of advanced lithium-ion batteries, is set to launch a new residential energy storage system in the U.S. in November.

What is the LG Home 8 energy storage system?

Life happens at home. Keep yours running smoothly with the LG Home 8 Energy Storage System (ESS)--a home battery backup solution built to store and provide up to 14.4 kWh of usable energy from solar panels or AC-coupled power. By installing more reliable backup power, you're free to keep doing what you love, where you're most comfortable.

Why should you choose LG Energy Storage Systems?

LG is proud to lead the charge toward a greener future with stylish and dependable electrification solutions. With our all-in-one Energy Storage Systems, we're committed to providing more reliable, renewable energy to power your home when you need it and peace of mind when you don't.

Is LG Energy Solution a modular energy storage system?

LG Energy Solution is a type of modular energy storage system. It isn't the first battery maker to create such a system; BLUETTI, for example, launched its new modular EPA800 ESS in September.

What is LG Energy Solution?

LG Energy Solution expects that this new generation of home batteries, customized easily for each site by selecting the number of modules, will satisfy the growing needs of homeowners for higher capacity and wider range of residential applications, such as using the power as a home back-up solution or charging electric vehicles.

What is LG Energy Solution enblock S?

LG Energy Solution's new product is called the LG Energy Solution enblock S. It is a stackable modular home energy storage system (ESS) launching in the US in November. LG Energy Solution, a Seoul-based lithium-ion battery giant, claims it is easy to install and incorporates enhanced safety features.
