

Lithium System AG mit Hauptsitz in Wetzikon, Schweiz beliefert seit 2010 Kunden in ganz Europa mit hochwertigen Lithium-Eisenphosphat (LiFePO₄) Batterien. Als einer der Ersten in Europa haben wir LFP und NCM Zellen mit einer hohen Energiedichte in unser Sortiment aufgenommen.

At Redux Energy, we develop state-of-the-art energy storage solutions, based on the safest, most thermally stable type of lithium batteries: Lithium-Ferro(Iron)-Phosphate (LiFePO₄). The core of the system is driven by a BatteryManagementSystem (BMS), which ensures the safe operation and long life of our batteries.

Lithium System AG mit Hauptsitz in Wetzikon, Schweiz beliefert seit 2010 Kunden in ganz Europa mit hochwertigen Lithium-Eisenphosphat (LiFePO₄) Batterien. Als einer der Ersten in Europa ...

At Redux Energy, we develop state-of-the-art energy storage solutions, based on the safest, most thermally stable type of lithium batteries: Lithium-Ferro(Iron)-Phosphate (LiFePO₄). The core ...

Leclanché SA is a world leading provider of high-quality energy storage solutions based on lithium-ion cell technology. We are committed to accelerating our progress towards a cleaner energy future. We have over 100 years of battery and energy storage innovation, powered by German engineering and Swiss quality.

Libattion produces industrial energy storage solutions that set a new standard for quality, sustainability, and safety. With our upcycled lithium battery storage & energy ...

Libattion produces industrial energy storage solutions that set a new standard for quality, sustainability, and safety. With our upcycled lithium battery storage & energy management system, you can leverage the power of renewables to mitigate costs and decarbonize your business.

The storage capacities of the company's intelligent lithium-ion-based ESS products range from 70 kWh to 100 MWh. INTILION's portfolio of solutions and services is leading the way to a decarbonised, flexible and ...

CSEM is creating smart storage technologies to tackle the main challenges of battery technologies: charging time, lifespan and range. Our focus on electrochemical batteries for ...

Redux Energy is the Swiss energy storage expert for LiFePO₄ lithium batteries in the range from 12V to 24V and 48V. These voltages allow for a broad range of use applications. Each application can be secured by an application-specific Battery Management System (BMS), in order to ensure optimal operation of the powered application and maximum ...

LiTHiUM System, formerly LiTHiUM Storage GmbH, headquartered in Illnau, Switzerland, has been

Lithium storage solutions Switzerland

supplying customers throughout Europe with high-quality lithium iron phosphate ...

Leclanché SA is a world leading provider of high-quality energy storage solutions based on lithium-ion cell technology. We are committed to accelerating our progress towards a cleaner ...

The storage capacities of the company's intelligent lithium-ion-based ESS products range from 70 kWh to 100 MWh. INTILION's portfolio of solutions and services is ...

LiTHiUM System, formerly LiTHiUM Storage GmbH, headquartered in Illnau, Switzerland, has been supplying customers throughout Europe with high-quality lithium iron phosphate (LiFePO₄) batteries since 2010. As one of the first in Europe we have added NMC cells with a high energy density to our assortment.

CSEM is creating smart storage technologies to tackle the main challenges of battery technologies: charging time, lifespan and range. Our focus on electrochemical batteries for short-term energy storage also includes the ...

At Redux Energy, we develop state-of-the-art energy storage solutions, based on the safest and most durable type of lithium batteries available in the world: Lithium-Ferro-Phosphate ...
