

Who owns electricity in Mayotte?

The only electricity supplier on the island is 'Electricit  de Mayotte, a soci t  anonyme d conomie mixte owned by the General Council of Mayotte (50.01%), 'Electricit  de France (24.99%), SAUR International (24.99%), and the State (0.01%). EDM entered the Industries  lectriques et G zi res (IEG) on 1st January 2011.

Which port generates most of the electricity in Mayotte?

The port of Longoni generates most of the electricity in Mayotte. The energy sector in Mayotte is mainly oriented towards the consumption of electricity based on fossil fuels; renewable energies are currently underdeveloped for the moment, and there is no export of fossil fuels.

Is Mayotte a good place to get electricity?

Electricity in Mayotte in 2015 was 95% thermal sources and 5% renewable energy. The multi-year energy program sets a target of 30% renewable energies in final consumption in 2020. Electricity needs are growing strongly due to the growth of Mayotte and its population, as well as the increase in electricity.

How many thermal power stations are there in Mayotte?

There are two thermal power stations in Mayotte, consisting of 17 diesel engines in all. The motors are of different powers (between 750kW and 8MW) and use different technologies. This makes it possible to adjust as needed.

But the electricity mix - the balance of sources of electricity in the supply - is becoming increasingly important as countries try to shift away from fossil fuels towards low-carbon ...
