

Miba Battery Systems GmbH is a specialist for the development and production of battery systems for electrified drives. It offers its customers the most technologically advanced, robust and safest solutions.

Die technischen Plus auf einen Blick Miba Battery Systems 07 Allgemeine Daten Weitere Features Zellchemie/Zelltyp Lithium-Eisenphosphat (Kobaltfrei) Lithium-Ionen-Batteriezellen Zellart Rundzelle Installation Stecksystem System Modular erweiterbar Montage / Aufstellort Wand / Indoor und Garage Batterie Module #07, #08, #09. In Entwicklung: #10, #11, #12

Miba Battery Systems ist Vorreiter in der Entwicklung und Produktion von Batteriepacks und Energiespeichersystemen auf Basis von Rundzellen sowie von Batteriekomponenten. Als weltweit erster Anbieter haben wir eine innovative Zellkontaktierung entwickelt, die ein effizientes Verschweißen von Rundzellen ermöglicht. Darüber hinaus rundet unser FLEXCOOLER als ...

Miba Battery Systems develops and produces lithium-ion battery packs and energy storage systems based on laser-welded cylindrical cells. By combining them with the Miba FLEXcooler, we significantly reduce the weight and cost as well as the CO2 footprint of the battery.

This is why Miba develops new solutions for the temperature management of batteries such as the Miba FLEXcooler for electric vehicles. The battery specialist Voltlabor, now Miba Battery Systems, manufactures advanced battery systems in Bad Leonfelden.

Miba Battery Systems is a pioneer in the development and production of battery packs and energy storage systems on the basis of round cells and battery components. We were the first supplier worldwide to develop an innovative contacting process for welding round battery cells efficiently. In addition, our FLEXCOOLER ideally complements our ...

The company offers a fully adaptable module system with sensitive temperature regulation and high-precision and laser-welded cells, which can be quickly assembled into different battery dimensions in the high-end field, the company's battery systems are used in automotive, LVC, bus, truck, railways, marine vehicles to name a few.

The Miba FLEXCOOLER improves fast charging, range, battery life and cost efficiency to ensure

optimum performance and customer satisfaction.. Compared to conventional solutions the FLEXCOOLER ® is a non-rigid component that is flexible in design, size and shape. Its flexibility allows the FLEXCOOLER ® to inflate/expand into the defined design space eliminating the ...

"Miba Battery Systems" to the employees Driven by our corporate mission "Technologies for a cleaner planet", Miba wants to grow to a revenue of EUR 1.5 billion by 2027 with technologies for end applications for the efficient production, transmission, storage and use of energy.

Miba Battery Systems is a pioneer in the development and production of battery packs and energy storage systems on the basis of round cells and battery components. We were the first supplier worldwide to develop an innovative contacting process for welding round battery cells efficiently.

AEHRA, a new global ultra-premium EV brand, is partnering with Austrian head-quartered battery supplier Miba Battery Systems to develop bespoke battery solutions for the AEHRA SUV and Sedan models.

Diese Zusammenarbeit markiert einen wichtigen Fortschritt für Miba Battery Systems und unterstreicht unser Engagement für zukunftsorientierte Energielösungen. Erleben Sie mit VOLTINDUSTRY® die ideale Kombination aus Leistung, Flexibilität und österreichischem Know-how - für eine nachhaltige, effiziente Energiespeicherung, die Ihren ...
