

Modular storage Guinea

How much inventory can Modula store?

The Modula system was able to store approximately 90% of our inventory - we couldn't believe it! Modula saves us hours every day in set up time and the convenience of having all our inventory in one location. When we needed service, we had it within a couple hours of our call and the problem was solved. We are really happy.

Where are Modula products made?

Made in the USA, Modula products are available from dealers across North America who are ready to help you find the innovative solutions that best serve your needs. The Modula systems enable us to pick components for kits much faster as the operators used to walk between sections, looking down rows of aisle trying to find a specific location.

Does a guinea pig enclosure need a liner?

No guinea pig enclosure is complete without a liner or bedding. GuineaDad's... Discover GuineaDad's Hay & Treats: precision-filtered hay for health and infrared-treated pea...

Why should you use a modular system?

The Modula systems enable us to pick components for kits much faster as the operators used to walk between sections, looking down rows of aisle trying to find a specific location. Now the parts get delivered right in front of them. Modula is a great product, and it has been key in our future growth. We can do much more, much better with much less.

Why do you need a Modula system?

Our tooling is very expensive. To minimize damages, the employee needs to work at a safe level. The Modula systems give us the perfect solution, and with safe and easy access, we have less damage to our products. The ergonomics of the Modula system also allow us to work very comfortably.

What can Modula do for You?

Transform your material handling with the most advanced automated storage and retrieval systems from Modula. Recover wasted floor space, maximize payloads, customize warehouse configurations, then reposition and rescale as needed.
