Who is OneSun solar?

OneSun is committed to delivering cost-effective and high quality solar energy solutions to homeowners across Southern California. We take pride in our experience within the solar sector and strive nothing short of delivering exemplary workmanship and customer service. Make an impact. It's never been easier.

What is OneSun all in one solar inverter?

ONESUN all in one solar inverter The solar energy kit is Single-phase low-voltage ALL-IN-ONE energy storage system. The package includes solar panels, All-in-one, PV Cable, and a set of accessories. Please refer to the parameter table for the specific product quantity and model.

How many factories does OneSun have?

It currently has two factories engaged in the development and production of lithium batteries and inverters. It vertically integrates PV panels, solar inverters, Li-ion batteries and accessories to provide customers with a complete set of PV energy storage products. ONESUN regard quality & safety as our lifeline.

What kind of batteries does OneSun use?

ONESUN regard quality & safety as our lifeline. For batteries, we only use Class A LiFePO4 batteries from China's top five brands, using BYD automotive-grade smart BMS technology. Our inverters' core components are adopted with international brands. Such as, IGBT is from INFINEON, and MOSFET is from TOSHIBA.
