

Photovoltaic panels are free in the country

Can you get free solar panels in the UK?

Solar panel grants like the ECO4 scheme can help consumers get free solar panels in the UK. Currently, there is 0% VAT on solar panels, batteries, and other renewable energy products, allowing for a discount of over £2,850 on the purchase of a 4kW system.

Are there free solar panel grants in the UK?

*Available solar panel grants in the UK as of April 2024 While some of the government initiatives are completely free solar panel grants, others are loans or reductions in VAT that count as solar panel government schemes. The application process and eligibility criteria for each of these are different, so let's go over each policy.

Are there free solar panels?

In short, there is largely no such thing as "free solar panels" in terms of government grants that will cover 100% of the installation costs. You can earn money from your solar panels via the Smart Export Guarantee. The VAT reduction scheme means you will pay 0% VAT on new solar panels, which are set to run between April 2022 and April 2027.

Are solar panels VAT free in the UK?

Since April 2022, UK homes have been able to benefit from zero VAT on solar panel materials and installation. The scheme ends in March 2027 and returns to 5% VAT. While it's at 0%, the average family can save more than £1,000 when choosing to have solar panels installed and up to a further £1,180 a year on energy bills.

Can a ECO4 grant deliver free solar panels?

The ECO4 grant can deliver free solar panels, though the amount awarded depends on eligibility and specific circumstances. In some cases, the grant has covered the cost of multiple energy upgrades costing over £80,000, according to Kevin Henney, Director at ECO4 Hub.

How many UK households don't have solar panels?

That all means that just 13% of the 27 million UK households that don't yet have solar panels are eligible for a grant, according to our analysis of government data. Thankfully, a lack of government funding hasn't stopped the popularity of solar panels from skyrocketing all over the country.
