

What is Optimal Light?

Optimal Light is one of the leading global researchers, designers, manufacturers, and distributors for energy saving LED lighting solutions. We have succeeded in applying LED technology to create a series of innovative environmental-friendly LED lighting products.

How is Saudi Arabia developing its solar energy sector?

1. Saudi Arabia has initiated the National Renewable Energy Program (NREP) to develop its solar energy sector, with several projects in progress, including a 600 MW capacity project. 2. Large-scale project such as Sakaka solar Independent Power Producer (IPP) (300 MW) and Dumat Al Jandal wind project (400 MW) were part of the first bidding process.

Is Saudi Arabia a good country to use solar energy?

Saudi Arabia has among of the world's greatest levels of solar radiation, making it one of the best nation suited to use solar energy. Fig. 7 shows the solar PV power potential map for various parts of Saudi Arabia.

How much does solar energy cost in Saudi Arabia?

2. Solar electricity costs have dropped to around US\$0.024/kWh in recent tenders in the UAE and Saudi Arabia. 3. In Saudi Arabia, the target is for 100% private-sector participation in water desalination by 2030, up from 23%. 4.

How much energy does Saudi Arabia need?

According to Giani, Tagle, wind energy could provide 26% of Saudi Arabia's electricity needs, and the average levelized cost of energy (LCOE) for the anticipated buildout is a competitive US\$39 MW/h.

How does Saudi government support the energy savings sector?

The government is committed to supporting the development of the energy savings sector, leveraging entities like the Saudi Energy Efficiency Center (SEEC) and TARSHID, a company with approximately \$500 million capital dedicated to supporting energy projects in the public sector. 4.
