How can a home owner make money from selling solar energy?

Earn money: Homeowners can earn money by selling back electricity to the grid in the UK through programs like the Smart Export Guarantee (SEG). Reduced carbon emissions: Selling excess solar energy back to the grid can help reduce the need for fossil fuels and decrease carbon emissions.

How do I sell solar power back to the National Grid?

This scheme was replaced by the Smart Export Guarantee (SEG), now the most common method of selling solar power back to the National Grid. To start benefiting from this government-supported scheme, you first need to register for the SEG tariff through an approved energy supplier.

Should you sell unused solar energy?

Storing can lead to cost savings, increased energy independence, reduced carbon emissions, and improved efficiency. On the other hand, selling unused electricity can earn homeowners money, further reducing carbon emissions and contributing to grid stability. How do you Maximise your Solar Panel Renewable Energy?

How do I sell excess electricity generated by my solar PV system?

To sell excess electricity generated by your solar PV system, you need to apply directly to a licensed SEG tariff supplier. Your SEG licensee doesn't have to be your current top-up electricity supplier. You can choose different companies for SEG payments, electricity supply, and gas supply.

Can you sell solar energy through SEG?

No, at the moment, the only option for homeowners is to sell excess solar energy back to the grid or store it using battery storage for future use. Are there special requirements to sell energy through SEG? Yes, The SEG requires your solar panels to be under 5MW capacity and you must have an MSC certificate for installation.

Can you sell solar power in the UK?

This method of selling solar power was introduced by the UK Government in 2010 to promote the uptake of renewable energy. Homeowners and business owners who installed renewable technology could get paid for all the energy generated if they were registered with a provider under the scheme, whether used by them or not.
