

Seychelles' 5-megawatt solar photovoltaic (PV) farm, commissioned in April 2021, was officially inaugurated in a short ceremony on Monday morning on Ile de Romainville.

The remote island of Alphonse is now completely powered by the largest photovoltaic farm in Seychelles, meaning diesel fuel is no longer needed to make electricity, said a top official of the Islands Development Company.

The floating solar plant is a game-changer for Seychelles, providing a reliable source of renewable energy and contributing to the country's sustainable development. We are especially proud to sign the first Seychellois ...

The new facility was built by Sustainable Power Solutions (SPS) - a South African-based distributed renewable energy company that provides solar energy solutions to ...

Qair, a French independent power producer, has revealed plans to install 5.8 MW of floating solar capacity on a saltwater lagoon in the Seychelles. The company said that the ...

The remote island of Alphonse is now completely powered by the largest photovoltaic farm in Seychelles, meaning diesel fuel is no longer needed to make electricity, ...

Once completed, Seychelles will have built the world's largest salt-water floating solar plant. The project, which has been seven years in the making, will see the installation of ...

The new facility was built by Sustainable Power Solutions (SPS) - a South African-based distributed renewable energy company that provides solar energy solutions to business customers across sub-Saharan ...

Once completed, Seychelles will have built the world's largest salt-water floating solar plant. The project, which has been seven years in the making, will see the installation of a 5-megawatt photovoltaic system in the lagoon at Providence, on the eastern coast of Mahe, which will help Seychelles move closer to its zero-emissions target.

The floating solar plant is a game-changer for Seychelles, providing a reliable source of renewable energy and contributing to the country's sustainable development. We are especially proud to sign the first Seychellois PPA for a floating solar plant on Energy Observer, our partner zero-emission vessel."

The floating solar plant is a game-changer for Seychelles, providing a reliable source of renewable energy and contributing to the country's sustainable development. We ...
