Who is Sterling & Wilson solar?

Sterling and Wilson Solar director & CEO Bikesh Ogra said: "We are delighted to have won two major solar projects in Australia. Our total order book in Australia now stands at about \$870m (A\$1.2bn) with five projects and a portfolio of more than 1.1GW, making us the largest home-grown solar EPC player in the region.

Where is Sierra Leone located?

Sierra Leone is located on the southwest coast of West Africa, lying mostly between latitudes 7° and 10°N (a small area is south of 7°), and longitudes 10° and 14°W. The country is bordered by Guinea to the north and east, Liberia to the southeast, and the Atlantic Ocean to the west and southwest.

Who settled in Sierra Leone in 1787?

In 1787 the British Crown founded a settlement in Sierra Leone in what was called the "Province of Freedom". About 400 black and 60 white colonists reached Sierra Leone on 15 May 1787.

What is Sierra Leone known for?

Sierra Leone has one of the world's largest deposits of rutile, a titanium ore used as paint pigment and welding rod coatings. There are several systems of transport in Sierra Leone, which has a road, air and water infrastructure, including a network of highways and several airports.

Is Sierra Leone a member of ECOWAS?

Sierra Leone maintains membership in several international organizations, including the United Nations, African Union, Economic Community of West African States (ECOWAS), and the Commonwealth of Nations, among others. Sierra Leone derives its name from the Lion Mountains near its capital, Freetown.

What happened to a girl from Sierra Leone?

Rescuers from non-governmental organisation Compass Collective said they were on their way to another emergency when they heard her calls for help. The unnamed girl, from Sierra Leone, told them she had set off with another 44 people from Sfax in Tunisia. Their boat had sunk and all the other migrants were presumed dead.

In its new low greenhouse gas (GHG) emission strategy to 2050, submitted to the United Nations (UN), the Ministry of Energy Transition and Sustainable Development (MEM) of Morocco suggested to raise the share of renewable capacity in the country's total power installed capacity mix to 80%.
