

## **Solar backup batteries Bonaire Sint Eustatius and Saba**

How will solar power and battery energy storage help Bonaire?

The addition of solar power and additional battery energy storage capacity will complement and add to the benefits of wind power generation and energy storage on Bonaire, further improving grid efficiency and resilience, lowering costs and reducing GHG emissions further, Narminio pointed out.

Does Bonaire have a smart energy storage system?

Grid power and electricity service on the Caribbean island of Bonaire has improved substantially as a result of the addition of a new, smart, battery-based energy storage system (BESS) to its hybrid wind-dual-fuel engine-based power grid.

Is a new solar-plus-storage project coming to the Caribbean?

News of a new, utility-scale Caribbean solar-plus-storage project emerged as this article was being prepared for publication. Swiss battery manufacturer Leclanché is to build a 35.6-MW, 44.2-MWh solar-plus-storage power plant on the island of St. Kitts.

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

Will Contour Global add 8 MW solar power to Bonaire's grid?

Bonaire's grid regulator has approved Contour Global's plan to add 8 MW of solar power capacity to the island's grid. The IPP is in the process of finalizing the EPC contract at present with an eye towards completing the project by next March or April, Narminio said.

Can Bonaire 'green' its energy mix?

Known as a Caribbean mecca of sorts for SCUBA divers and marine life in the Caribbean, Bonaire's government has been keen to "green" its energy mix and help stem the rising tide of greenhouse gas (GHG) emissions, global mean temperature and sea levels.

Bonaire, Sint-Eustatius and Saba are in the selected group of 30 islands that have been chosen by the European Union (EU) to take part in the "30 for 2030" project. The islands, which were selected after an extensive selection process, can count on intensive support from the EU to realise their ambition to have fully sustainable energy ...

## **Solar backup batteries Bonaire Sint Eustatius and Saba**

The solar park in Bonaire will consist of an impressive 10.816 solar panels that will be generating about 10 megawatts of electricity to the entire island. Estimates state that around 5.000 households will be powered by the new project.

The government makes 33.6 million euros available for an accelerated switch to sustainable electricity in Bonaire, St. Eustatius and Saba. This means within 3 years, an average of about 80 percent of the electricity on the three islands will ...

A new solar farm and a new wind farm, plus a solar battery, run by electricity company Contour Global and the partly public company BBT (Bonaire Brandstof Terminals), ...

emissions from renewable power is calculated as renewable generation divided by fossil fuel generation multiplied by reported emissions from the power sector. This assumes that, if ...
